- iii. Cllr Shepherd reported he had spoken to the lady who arranged the village planters last year. She is reluctant to do them again this year as last year they were not watered properly. It was decided that Cllr Kelsall be asked to put something onto Facebook asking for volunteers to assist with watering. **Action: Cllr Kelsall.**

Alton Parish Council

- viii. Cllr Gwinnett reported that she has spoken to a householder regarding the hedge restricting drivers view on Saltersford Lane. The house holder has the hedge cut twice a year by a farmer; it is too dangerous to stand in the road to cut it himself.

- i. Cllr Kelsall was not present but had sent a message that she is in talks with Alton Towers to continue the playground project.

88/25. Footpaths.

94/25. Planning and Licensing Applications.

- i. SMD/2025/0230. Mrs Jeanette Cant, Local Authority Foster Carer, Red Lion Cottage Smithy Bank, Alton. Listed building consent to take down and rebuild the two chimneys to the same visual specification. **No Objections.**
- ii. DET/2025/0021. Mr And Mrs S And M Roberts, Bradley Hall Farm Bradley Lane Bradley In The Moors Alton. Application to determine if prior approval is required for the change of use of agricultural building to form 1 dwellinghouse and associated building operations (Class Q Permitted Development). Cllr Wood had a number of observations to make on this application which he explained to the council as follows:
1. The building at Bradley Hall Farm has only 2 infilled sides, not 3 as stated in the Planning Statement submitted – the Existing Plans and Elevations drawing clearly shows this; the SW elevation (incorrectly shown on the drawing as the NE elevation) is open sided and is only 'closed off' by the infill blockwork of the adjoining barn (which it is stated will be

Alton Parish Council

demolished).

2. The Hibbitt vs Secretary of State (2016) referred to in para 2.6 in the Planning Statement, states that the 'Hibbitt' barn was open on 4 sides, whereas when the Court Transcript of the case is referenced, it records that the 'Hibbitt' barn was open to 3 sides.

3. The Court Transcript states 'it is not the intention of the permitted development right to include the construction of new structural elements for the building'. There is a clear similarity between the agricultural building at Bradley Hall Farm and the 'Hibbitt' barn (ie steel framed, semi-open sided); a significant element of rebuilding (of exterior walls) rather than conversion would be required to the applicant's building, thus the applicant's claim to Class Q permitted development should be refused.

4. The proposals indicate that zinc cladding will replace the roof and wooden cladding, (para 3.10, 'timber cladding replaced with zinc cladding... the resultant building will retain its agrarian form...'). Zinc cladding fails to reflect the character of the area, ignoring the SMDC local plan guidelines, ie:

a. policy DC3 para 1: 'resisting development which would lead to prominent intrusion into the countryside, or have a significant adverse impact on the character or the setting of a settlement...', and

b. policy SS10 para 3: 'by giving priority to the need to protect the quality and character of the area and requiring all development proposals to respect and respond sensitively to the distinctive qualities of the surrounding landscape'.

The structural survey report under the section 'Discussion and Conclusions', para 6 refers to these guidelines, but there is no mention of this in para 2.7 of the Planning Statement. It is also to be noted that SMDC rejected application SMD/2021/0673, Jays Barn (located within 100m of the building under consideration) partially on the basis of it proposing to use metal cladding. **Action: These observations will be forwarded to the Planning Department by the clerk.**

Alton Parish Council
