

Statement of Variances - Year ended 31 March 2026

Instructions for completing this template:

1. Enter figures per the AGAR in the cells highlighted in light blue. This will automatically calculate a difference and a percentage change between years.
2. If the variance is within 15%, no explanation is required (except fixed assets). However, if it is outside this threshold, the percentage difference will highlight in yellow and an explanation is required.
3. Explanations should be entered in the 'Item' column within each section, quantified as appropriate. This will automatically calculate the remaining difference and the percentage unexplained. There is additional space in the 'Additional comments/explanations' column, where a more detail explanation can be provided for the movement between years.
4. Once a sufficient explanation has been given to bring the percentage within 15% between years, the percentage difference cell will highlight as 'green' in the 'explained' line.

Please note that for fixed assets, regardless of the percentage change in the figure, an explanation is required for the movement.
